Driver Accountability

Drivers need to be aware of their responsibility and public safety. There are more than 3.3

million truck drivers in the United States.

"Roadcheck has once again successfully reinforced the critical importance of safety, compliance, and crash prevention — lives depend on both safe and well maintained trucks and safe and well trained drivers," said FMCSA Administrator Anne S. Ferro.

CVSA is an international not-for-profit organization comprised of local, state, provincial, territorial and federal motor carrier safety officials and industry representatives from the United States, Canada, and Mexico. Our mission is to promote commercial motor vehicle safety and security by providing leadership to enforcement, industry and policy makers. www.cvsa.org

Accountability falls heavily on truckers, so please make sure that you are following all compliance and safety rules. Federal Motor Carrier Safety Administration: www.fmcsa.dot.gov
