ALERT: Mexico Cross-Border Document

The U.S. DOT released a "Concept Document" for renewed negotiations with Mexico regarding a cross-border trucking program in the future. To open the border to Mexican trucking companies and drivers will impact the availability of loads and significantly reduce transportation costs that Mexican truckers will offer.

Trucking program with Mexico is a bad idea. Mexico has failed to institute regulations and enforcement programs like those in the United States. Thousands of U.S. jobs will be lost if a cross-border trucking program with Mexico is initiated.

To reach your Senators and your Representative in the House, call the U.S. Capital switchboard at (202) 224-3121, provide the operator with your home zip code. The operator will connect you with the offices of your elected representatives.
