Privatization “Hot Topic”

Privatization of American’s highways is of great concern to truckers and the american public. President Bush is pushing public-private partnerships would end highway funding concerns. He drew heavy fire quickly from both the public and private sectors. The coalition for Americans for a Strong National Highway Network wrote a letter to Secretary of Transportation Mary Peters the group’s concerns about the federal push to privatize the nations highways.

“Federal promotion of privatization deals that do not consider highway users’ interest at the top priority will not achieve your goals of promoting safety, mobility, economic growth, and congestion relief.”

We are all aware there is funding with federal infrastructure hitting a crisis level. There are also organizations involved, The Owner-Operator Independent Drivers Association, AAA, American Trucking Associations, American Highway Users Alliance, American Motorcyclist Association, Natso and the Recreation Vehicle Industry Association.
