## **Fuel Prices**

Summer driving is around the corner. Gas prices are expected to drop for the summer. According to experts gas prices will be lower than they are right now. The economy is stabilizing, people are starting to travel. Many drivers see gas prices as a determining factor in their decisions to take a summer vacation. Experts say drivers can expect prices will jump up and down a bit.

## **Diesel Fuel**

**Rudolf Diesel (1858-1913)** was a German inventor and mechanical engineer, famous for the invention of the diesel engine. Diesel fuel in general is any liquid fuel used in diesel engines. The most common is a specific fractional distillate of petroleum fuel oil, but alternatives that are not derived from petroleum, such as biodiesel, biomass to liquid (BTL) or gas to liquid (GTL) diesel, are increasingly being developed and adopted.
